Deputy Assistant Director, ORE

Operational Coordination

REFERENCE: Memorandum from Executive to D/CI dated 8 November 1949, Subject as Above.

1. In general ORE agrees with the principles set out in the reference memorandum, but in view of the importance and the far reaching implications of the proposal it is believed that this Office should devote more time to an analysis of the problem. In order not to delay the progress of the paper, however, it is being forwarded to OSI and a definitive ORE comment will be prepared for delivery to the Director at a later date.
